Southwest LRT Community Works Steering Committee
Thursday, January 16, 2014
1:30 to 3:00 PM
Council Chambers, St. Louis Park City Hall

Agenda

I. Welcome & Introductions
Chair Gail Dorfman, Hennepin County

II. Approval of December 2013 Minutes*

III. Corridor Wide Housing Strategy
Corridor Wide Housing Gap Analysis*
Housing Policies/Programs: Marla Zimmerman, MZ Strategies
Housing Inventory Map Series*

IV. Southwest Corridor Investment Framework: Next Steps

V. 2014 Southwest LRT Community Works Workplan

VI. Adjournment

* enclosed

The Steering Committee will meet next on Thursday, February 20, 2014, from 1:30-3:00 at the St. Louis Park City Hall.
Southwest LRT Community Works Steering Committee
Meeting Minutes
Thursday, December 19, 2013
1:30 - 3:00 pm
St. Louis Park City Hall

Meeting Attendees
Steering Committee Members & Alternates
Chair Gail Dorfman, Hennepin County Member
Peter McLaughlin, Hennepin Regional RR Authority Member
Jason Gadd, City of Hopkins Member
Anne Mavity, St. Louis Park Member
Terry Schneider, Minnetonka Member
Anita Tabb, Minneapolis Park and Recreation Board Member
Bob Fine, Minneapolis Park and Recreation Board Alternate
Mary Brindle, Edina Alternate
Jeff Casale, Minnehaha Creek Watershed District Alternate
Dick Miller, Minnehaha Creek Watershed District Member
Caren Dewar, Urban Land Institute–Mn Ex Officio

Other Attendees
Katie Walker (Hennepin County), Kerri Pearce Ruch (Hennepin County), Chuck Darnell (Hennepin County),
Mark Koegler (HKGi), Chuck Salter (Hennepin County Attorney’s Office), Mark Fuhrmann (Metro Transit),
Meg Forney (Minneapolis Park and Recreation Board), Joan Vanhala (AMS), Kathryn Hansen (SW Project
Office), Dave Nuckols (Commissioner Callison’s Office), Julie Wischnack (Minnetonka), Meg McMonigal
(St. Louis Park), Kersten Elverum (Hopkins), Janet Jeremiah (Eden Prairie), Sean Walther (St. Louis Park),
Kimberly Kompel (SPO), Jeff Peltola (Public Works for Public Good), Larry Blackstad (Three Rivers Park
District), Vida Ditter (Minneapolis), Kathie Doty (KLD Consulting)

I. Welcome and Introductions
Chair Gail Dorfman convened the meeting and asked members and attendees to introduce themselves.

II. Approval of October 2013 Minutes
Chair Dorfman asked for a motion on the minutes from the October 17, 2013 Steering Committee meeting. The minutes were moved, seconded and passed on a voice vote.
Before beginning the agenda, Chair Dorfman asked Peter McLaughlin to provide an overview of the County’s Community Works program, which is approaching its 20-year anniversary. This program has taken on significant projects to create public/private partnerships that have transformed key areas of the community, including the Midtown Greenway and the Humboldt Greenway. Chair Dorfman talked specifically about the success of the Midtown Greenway which hosts one of the best bike trails in America, and Peter McLaughlin provided some history of what conditions were when the Community Works program was being formed. Twenty years ago, there was no light rail in the Twin Cities and the outlook for urban America unclear. The Community Works model used infrastructure investments to take advantage of opportunities for economic development and grow our tax base. This was a very new endeavor for the County, which hadn’t been involved in development up to that point. This model has been very successful and it continues to work for challenges of today, including the Southwest Corridor. Dick Miller emphasized the significant contributions of the private sector (Wells Fargo and Alina). Terry Schneider recommended that the County increase efforts to ‘tell the story’ about this program to expand understanding about its potential. Peter McLaughlin concluded that it took courage to launch and sustain this effort, but it has produced waves of investment in areas identified for Community Works projects.

III. Southwest Corridor Investment Framework
Chair Dorfman asked Mark Koegler, HKGi, consultant lead on the Transitional Station Area Action Planning (TSAAP) work, to talk about the status of TSAAP. Mr. Koegler thanked members for their participation in the November TSAAP workshop, city staff for working with his team, Southwest Project Office staff for their collaboration, and County staff led by Katie Walker, for their direction and support. The Investment Framework that is a result of the TSAAP effort will guide decisions for the next twenty years. The final version of the Investment Framework is expected to be distributed within the next few weeks after staff review is complete.

Chair Dorfman stated that she was impressed at workshop that each station shows potential for development or redevelopment. She asked Katie Walker to show a map that identifies specific opportunity sites.

Jeff Casale reported that trail construction that will enhance access to the Blake Road SW LRT station is beginning next month. Chair Dorfman reported that the County is working with the Twin Cities Community Land Bank to explore possible strategic acquisition program to support redevelopment in targeted areas.

Chair Dorfman asks the Steering Committee to review a draft resolution to accept the Investment Framework and forward this document to cities for action. Committee members discussed what actions their respective cities might take. After that discussion, a motion was made and seconded to move the resolution. The motion passed unanimously on a voice vote.

IV. Presentation 2013 Achievements/2014 Workplan
Chair Dorfman asked Katie Walker, Hennepin County, to review 2013 accomplishments for the Southwest Community Works program. Ms. Walker highlighted the collaborative nature of the achievements, which included the completion of the Transitional Station Area Action Plan, the Corridor wide Housing Inventory, having SW LRT collaboration chosen as a presentation at the 2013 Railvolution conference, LISC public workshops, the restructuring of the program website to focus on Community Works, creation and adoption of Guiding Principles, production of Station Area Profiles, and creating of a walkshed analysis tool.

For 2014, Ms. Walker presented that the focus will be on: strategic acquisitions in the SW corridor, creation of Master Development plans, completion of a Housing Gaps Analysis, and support for the SW LRT New Starts application.

V. Presentation McKnight Moving The Market Grant – Employment TOD Pilot Project
Katie Walker, Hennepin County, and Yvonne Ho, Metropolitan Economic Development Association (MEDA) presented on the McKnight grant (Mike Temali, Neighborhood Development Corporation (NDC), was unable to attend). The County has been awarded a $750,000 grant for a 2-year pilot to conduct strategic outreach focusing on job creation and equitable development. One or two proposed SW LRT stations that have strong business development potential will be chosen for the pilot project. Ms. Ho presented on MEDA, who they are and what they do. MEDA’s first focus is on growing businesses, and then on place-making. They seek to help minority businesses in start up or expansion mode. The work with a range of industries, not just retail.

Katie Walker stated that the stations for the pilot project will be chosen in the first quarter of 2014, and the focus will be on suburban stations. Chair Dorfman thanked Ms. Walker and Ms. Ho for their presentation, and said she would be looking forward to updates over the coming year.

On a related topic, Ann Mavity asked about Minneapolis membership on the SW Community Works Steering Committee, and after discussion, Chair Dorfman offered that this would be a good time to reach out to the new mayor and city council to more fully engage them in the committee work.

VI. Adjournment
Chair Dorfman adjourned the meeting, thanking members for their participation.
**Agenda Item 3: Corridor Wide Housing Gap Analysis**

<table>
<thead>
<tr>
<th>Steering Committee Action Requested:</th>
<th>Information</th>
</tr>
</thead>
</table>

**Background/Justification:**
In Fall 2013, Hennepin County issued a request for proposals (RFP) to conduct a Corridor Wide Housing Gaps Analysis. The Gaps Analysis is designed to build on the extensive body of data compiled in the Housing Inventory as well as the work completed through the TSAAP process. The Gaps Analysis will identify the housing needs of those most likely to want to live along the Southwest Corridor and compare those types (unit size, rents, housing type) with the existing housing along the corridor. It will make recommendations about what types of housing are needed along the corridor to provide housing choice for a full range of incomes and address needs for preservation of affordable housing currently existing along the corridor. It will also make recommendations on the tools and funding mechanisms necessary to attract desired housing development.

The Gaps Analysis is expected to be complete by summer of 2014 and will be funded by Hennepin County, the Family Housing Fund, LISC, and all six partner cities.

**Previous Action on Request:**

**Comments:**
Update on the Southwest Corridor Housing Strategy
January 2014

The Southwest LRT Community Works Steering Committee endorsed preparation of a Corridor Wide Housing Strategy. This corridor-wide housing strategy supports the vision of the Southwest Community Works project and the guiding principles also adopted by the Steering Committee, specifically “provide a full range of housing choices; positioning the Southwest LRT communities as a place for all to live.” Development of a Corridor Housing Strategy also responds to the recommendations adopted in 2011 by the Corridors of Opportunity Policy Board on how regional transit corridors should address Fair and Affordable Housing in their overall TOD strategies. The primary recommendation was for the adoption of measurable, corridor-wide goals and strategies to ensure sufficient housing, both new production and preservation, to serve a full range of incomes.

Housing staff from all six cities as well as ULI-MN, LISC, Met Council, the Southwest Project Office and Minnesota Housing meet monthly as the Southwest Housing Workgroup. This group has played a key role in accomplishing the tasks and providing guidance and direction to the Southwest housing work. A Regional Partners group, comprised primarily of funding partners including Hennepin County, Family Housing Fund, LISC, Met Council and Minnesota Housing also meets on a regular basis to review funding and policy needs.

The four primary tasks in development of the housing strategy are: Housing Inventory, Market Feasibility and Accessibility, Gaps Analysis and Strategy and Goals. A Southwest Corridor-wide Housing Inventory, funded through Hennepin County and a Metropolitan Council Local Implementation Capacity grant, was completed March 2013 by Maxfield Research Inc. This inventory fulfills the first step in this process by providing critical baseline data that will inform additional components. The inventory data was shared with City Councils in 5 of the 6 Southwest cities and will be shared with Minneapolis councilmembers and staff in February 2014.

Market Feasibility and Accessibility work has been integrated into the Transitional Station Area Action Plans, which are part of the Investment Framework completed in December 2013. The Investment Framework identifies existing housing types in and around station areas as well as station areas where housing development or redevelopment is likely to occur. This information will be further refined as part of the Gaps Analysis.

In Fall 2013, Hennepin County issued an RFP for the Gaps Analysis task. The Gaps Analysis is designed to build on the extensive body of data compiled in the Housing Inventory as well as the work completed through the TSAAP process. The Gaps Analysis will identify the housing needs of those most likely to want to live along the Southwest Corridor and compare those types (unit size, rents, housing type) with the existing housing along the corridor. It will make recommendations...
about what types of housing are needed along the corridor to provide housing choice for a full range of incomes and address needs for preservation of affordable housing currently existing along the corridor. It will also make recommendations on the tools and funding mechanisms necessary to attract desired housing development.

The Gaps Analysis is expected to be complete by June 2014 and include recommendations and strategies for action by individual Southwest Community Works Partners. The Gaps Analysis work is funded through a broad coalition of Community Works partners, including Hennepin County, Family Housing Fund, LISC, and all six Community Works cities. Recommendations and strategies will be shared with stakeholder groups, the Community Works Steering Committee, funding partners and cities for action and implementation.

In addition to the tasks outlined as part of the Corridor Housing Strategy, the Housing Workgroup is reviewing tools and strategies for creation and preservation of affordable housing along the Corridor, including the large amount of “naturally-occurring” affordable housing. The Regional Partners group has developed a project pipeline to track housing development along Southwest Corridor to better coordinate funding needs and resources. Both groups have been involved in work with ULI-MN and Maria Zimmerman to inform the New Starts application process in 2014. For the first time, housing criteria will be included in FTA’s project ranking and Southwest is seeking to maximize its score in this area.
**Agenda Item 3: Housing Policy/Plan Analysis & Recommendations**

<table>
<thead>
<tr>
<th>Steering Committee Action Requested:</th>
<th>Information</th>

EDEN PRAIRIE  MINNETONKA  EDINA  HOPKINS  ST. LOUIS PARK  MINNEAPOLIS

METROPOLITAN COUNCIL
MINNESOTA’S GREENLINE
LRT EXTENSION:
AFFORDABLE HOUSING
NEW STARTS EVALUATION

January 16, 2014
Mariia Zimmerman, MZ Strategies, LLC
mariia@mzstrategies.com

Scan of existing policies and incentives along the corridor
Growing concerns about potential to lose naturally occurring and subsidized affordable housing near transit as development pressures pick up

Regional priorities to address growing income disparities, improve regional access to jobs and opportunity, and to meet fair housing requirements and commitments

- Transit Station Area Planning Process
- SWCW Housing Workgroup
- Corridorwide Housing Strategy
- Housing Gap Analysis
FTA’S AFFORDABLE HOUSING EVALUATION

**Existing Land Use**
- Existing affordable housing in the project corridor

**Economic Development**
- Local plans, policies and incentives in place to support maintenance of or increases to affordable housing in the project corridor
Rating determined by the proportion of "Legally Binding Affordability Restricted" housing at 60% AMI within ½-mile of station areas to the proportion of "legally binding affordability restricted" housing in the counties through which the project travels.

2013 SPO analysis found:
- SW Corridor Share: 10.6%
- Hennepin County Share: 6.0%
- Ratio of 1.79 = medium rating

FTA gives option for additional, relevant project sponsor information, i.e. counties have higher % of region’s affordable housing.

Consider:
- RCAP data & FHEA analysis?
- Include Central Corridor and Ramsey?
- Reference Sec 8 tenant vouchers currently along corridor if substantial for region?

FTA breakpoints: High: > 2.50; Med-High: 2.25-2.49; Med: 1.50 – 2.24; Med-Low: 1.10 – 1.49; Low: <1.10
High – Engineering
- Plans & policies in place in most jurisdictions to identify and address critical hsg needs along corridor
- Explicitly address hsg affordability and need of very & extremely low hhlds
- Financing commitments and funding/incentives in place to support AH acquisition
- Strategy to encourage AH zoning and local policies
- Developers are actively working on AH projects & site acquisition

Medium – Engineering
- Plans are starting or being prepared
- Explicitly address hsg affordability and need of very & extremely low hhlds
- Some financing commitments/incentives identified and secured
- Strategy to encourage AH zoning and local policies
- Developers starting to work on AH projects & site acquisition

Low – Engineering
- Plans not in place or underway
- No financial commitments
- No strategy for zoning
- No or little AH development
TO MOVE FROM MEDIUM TO HIGH

- Need to demonstrate comprehensive nature of plans and policies
  - Adoption (resolutions) vs. development
  - Needs of low- and extremely low-income households
  - Zoning for Affordable Housing WITHIN corridors (vs. citywide) – take comprehensive plans to the next level

- Fully capture regional story – funding incentives by Met Council, SW Community Works and Hennepin County HRA

- Regional AH allocation by Met Council is a big deal!

- Transit criteria boost by Minnesota Housing is also significant!

- Active non-profit partners (LISC/ULI)

- Spotlight Development examples: Hopkins, + reference Central Corridor and LCA etc. pipeline
SW POLICIES AND PLANS

Strengths
- Housing Inventory and SW Community Works Housing Work Group
- City of Eden Prairie 2012-2018 Strategic Plan for Housing and Economic Development
- Corridors of Opportunity; Non-profits & Philanthropy
- Regional housing plan under development by Met Council
- Hennepin Cty Consortium Consolidated Plan
- TSAAP underway

Weaknesses
- Don’t over-rely on METC or County
- Most existing local AH policies and plans appear not specific to corridor
- Most existing local TOD policies don’t appear to have AH element
- Do not appear to address needs of low and extremely low-income households
**Strengths**

- Lots of programs exist at variety of scales
  - i.e. Mpls Higher Density Corridor Housing Program;
  - Hennepin County HRA Affordable Housing Incentive Fund;
  - Minnetonka Pooled TIF
  - Mn Housing QAP + State Bonding levels;
  - Family Housing Fund

**Weaknesses**

- Lacking a corridor acquisition program
- Majority of existing local AH financial support programs are not TOD-specific
TARGETING NEEDS OF MOST VULNERABLE HOUSEHOLDS

- Reference the FHEA work done under Sustainable Communities Grant: RCAPs (how will this inform future public investments?)

- Minneapolis Comp Plan Policy 3.4.1 – promote development of housing for very-low income households

- Specific programs for at/below 30% AMI?
  - Hennepin County Consortium Consolidated Plan
  - Mpls Higher Density Corridor Housing
  - HRA’s AHIF program
  - Met Council LHIA program
  - MnHsg programs – but given statewide nature hard to make the case. Project example?
DEVELOPMENT ACTIVITY

- Tell Central Corridor Story and broader AH development in metro – increase rental/MF activity

- Engaged development community e.g. ULI

- Broader TOD efforts by Met Council and County

- Examples of new projects or those in the pipeline?
Emphasize City’s long-time commitment to affordability & SW as mixed-income LRT corridor.

Finance, plans and policies all focused on creating a green, TOD/walkable town center identity.

- **Gallery Flats** – under construction;
  - Gateway btwn LRT and Main St.
  - Innovative first floor flex space (retail/hsg)
  - Low 1:1 parking ratio

- **Project for Pride in Living** (near Blake Rd)
  - Creating new access to Park & Minnehaha Creek
  - Public & non-profit finance

- **Existing Public Housing and Project Based**
## SW LRT New Starts Affordable Housing Ratings Evaluation

</table>

The City of Minneapolis Strategic Plan for Housing and Economic Development (2012 – 2018) recognizes the Community Development Department’s mission, prioritizes the Housing and Economic Development Divisions’ projects, and identifies implementation strategies and funding sources for the next seven years. It is a comprehensive update of the 2005 Strategic Plan for Housing and Economic Development, which was created by the Community Development Department and reviewed by the City Council. The 2005 plans received minor updates in 2008 and 2010.

Eden Prairie has adopted a goal of having 1,198 to 1,843 new affordable housing units (out of 3,500 total projected new units) between 2010 and 2020 to help meet regional goals; this includes subsidized and market rate affordability; existing unaffordable market rate units can also be converted to affordable to help meet this goal. Housing strategies include partnering with vendor agencies and community groups to identify service needs and gaps in the community and facilitate the funding process to ensure quality, appropriate services to meet the needs of the community, ensure that immigrant populations have the tools and knowledge to share in the high quality of life in Eden Prairie, and Allocating General Funds and CD66 funds to affordable housing initiatives, housing rehab and human services programs, and exploring ways to assist with operational issues that may affect future preservation of affordable housing, and Explore other ways to increase the number of affordable rental units among existing supply of rental housing.

The Downtown East/North Loop Master Plan is to develop a vision and a framework for how new growth should occur in the underdeveloped districts of Downtown Minneapolis, particularly in areas surrounding proposed rail transit stations. Master Plans provide City officials with critical information for making sound decisions concerning the City’s priorities for revitalization within designated project areas. The Plan was adopted by the Minneapolis City Council in October 2003. Policies for TOD include promoting downtown living by forgoing Complete Communities that include a mixture of transit stations, commercial office, retail, housing, and parks/plazas. Policies for Downtown Housing specify that a percentage of all housing units should be set aside for non-market and “hard-to-house” tenants. The TOD Zoning District will provide standards for development of attractive, compact, walkable, mixed-use housing and employment centers that creates a live/work/play environment for the community near LRT station area. The purpose is to: Provide a mix of higher density residential, mixed uses, and employment within walking distance of Light Rail, and a more efficient, compact and connected development pattern.

The grant is matched with $15,000 of City Economic Development Funds and City staff time (combination of Economic Development Fund and in-kind contribution.) The TOD Zoning District will provide standards for development of attractive, compact, walkable, mixed-use housing and employment centers that creates a live/work/play environment for the community near LRT station area. The purpose is to: Provide a mix of higher density residential, mixed uses, and employment within walking distance of Light Rail, and a more efficient, compact and connected development pattern.

Hennepin County Consortium focuses on public housing investments in suburban Hennepin County. Chapter 4 details Goals, Objectives and Strategies that will guide the affordable housing investments covered within the broader plan. Preservation and Rehabilitation of existing affordable housing for extremely low and low-income populations is noted as the highest priority for the Consortium. These low-income groups face a severe rent cost burden as reported in other parts of the Plan. Among the priority strategies listed is to "incorporate opportunities for new housing in TODs along county transit corridors, with an emphasis on Southwest and Bottineau corridors."

<td>METROPOLITAN COUNCIL</td>
<td>Transportation Policy Plan/THRIVE MSP 2040</td>
<td>The purpose of the 2030 Transportation Policy Plan is to guide development of the region’s transportation system to the year 2030 and to provide for an integrated multimodal transportation system that advances regional land use and growth management goals. A 2013-2014 Update of the Transportation Policy Plan is under development.</td>
<td><a href="http://www.metrocouncil.org/Projects/Thrive-2040.aspx">http://www.metrocouncil.org/Projects/Thrive-2040.aspx</a></td>
<td>Comprehensive Plans must conform to the Transportation Policy Plan and should recognize the special transportation opportunities and problems that various Development Framework planning areas present with regard to transportation and land uses.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>METROPOLITAN COUNCIL</td>
<td>Regional Affordable Housing Allocation</td>
<td>The affordable housing needs report forecasts the region’s affordable housing needs from 2011 – 2020. It is the basis for the housing needs numbers the Metropolitan Council has provided to local government to aid them in fulfilling the affordable housing planning responsibilities in the Land Planning Act. Determines a forecast of low- and moderate-income new construction housing need for the decade 2011 to 2020</td>
<td><a href="http://www.metrocouncil.org/Planning/Affordable-Housing-Planning-Needs.aspx">http://www.metrocouncil.org/Planning/Affordable-Housing-Planning-Needs.aspx</a></td>
<td>Metropolitan land use planning Act (MLUPA), Minn. Stat. Sec. 473.458, subdivision 2, paragraph [c], requires communities in the region to include in their comprehensive land-use plans a housing element that acknowledges the city’s share of the forecasted regional need for low- and moderate-income housing. The Metropolitan Council must also prepare and adopt guidelines and procedures to help local governmental units accomplish the provisions of the Metropolitan Land Use Planning Act, including this affordable housing planning responsibility. In the report, a unit is affordable if it is priced at or below 30 percent of gross income of a household earning 60 percent of the Twin Cities median family income.</td>
<td>Transit Service Level: A factor considered in allocating affordable housing need is the level of transit service (destinations and frequency) in a given community. Low income households are more sensitive to transit services than middle- and upper-income households, and locating affordable housing near transit opportunities is a public policy goal.</td>
<td></td>

<td>Affordable Housing Agreements</td>
<td>The City of Minnetonka - Extension of affordability commitments</td>
</tr>
</tbody>
</table>

Minnetonka has been working to extend affordability commitments for affordable housing projects that are nearing the end of affordability commitments.

| Cities of Minneapolis, Minnetonka | Housing Replacement Tax Increment Financing (TIF) | Program is administered by cities, the city partners with a 3rd party organization. |

Tool that reimburses some of the costs incurred by the city in acquiring blighted properties and preparing for redevelopment. The program has an emphasis on providing affordable housing. Minnetonka has set aside $6M in TIF pooling funds. The City of Minnetonka expects to use the majority of these funds in the LRT area for affordable housing.

| City of Eden Prairie | Tax Increment Financing (TIF) District | Public subsidy to stimulate economic development projects |

TIF Districts: Affordable Housing (e.g., Lincoln Parc Mixed Use) Pooled TIF: Affordable Housing (e.g., 1st Time Homebuyer’s program expansion from previous affordable housing projects’ excess increment) TIF Extensions and incentives to maintain/increase legally binding affordable housing

| Cities of Eden Prairie, Edina, Hopkins, Minneapolis, Minnetonka, St Louis Park; Hennepin County | Deferred Loans/ Home Rehab Loans/ Code Abatement Loans | Program is administered by cities, the city partners with a 3rd party organization. Eden Prairie does not partner with a 3rd party organization – the work is done internally at the City. Hennepin County administers the single family rehab program in all communities along Green Line extension corridor except Minneapolis. |

Deferred loan program to homeowners with qualified incomes. Designed to provide needed maintenance, energy efficiency improvements, code violation improvements. Some cities forgive the loan after a specified period of time, others require repayment at time the home is sold or in 30 years.

| Cities of Eden Prairie, Edina, Minneapolis, Minnetonka, St Louis Park | First-Time Home Buyers | Program is administered by cities, the city partners with a 3rd party organization. |

Program is administered by cities, the city partners with a 3rd party organization. Some cities partner with a 3rd party.

## Agenda Item 3: Housing Inventory Maps

<table>
<thead>
<tr>
<th>Steering Committee Action Requested:</th>
<th>Information</th>
</tr>
</thead>
</table>

**Background/Justification:**
Using data from the Housing Inventory completed in 2013 and the walkshed tool, Hennepin County has also created a series of maps showing affordable housing at each station area, both legally binding affordable housing and “naturally occurring” affordable rental units. These maps are useful to identify preservation needs for affordable housing and to see how improvements recommended in the Investment Framework can improve connectivity to station areas. Copies of the maps will be provided at the meeting and will be posted on the Southwest Community Works website ([www.swlrtccommunityworks.org](http://www.swlrtccommunityworks.org)).

Corridors of Opportunity: From Pilot to Practice

**Wednesday, January 29**
8 a.m. – noon

**McNamar Alumni Center**
University of Minnesota
200 Oak Street S.E.
Minneapolis, MN 55455

**About the Event**
Our region's transit corridor investments are creating opportunities for improved mobility, better access to job centers, and economic growth. Over the past two-and-a-half years, the [Corridors of Opportunity partnership](http://www.corridorsofopportunity.org) has brought together regional leaders from the public, private, and non-profit sectors to activate development along transit corridors while ensuring these investments reach people across the income spectrum.

**Register**
Join us and U.S. HUD Office of Sustainable Housing and Communities Acting Director Salin Geevarghese to discuss how we move forward to grow a prosperous, equitable, and sustainable region. Following the plenary, breakout sessions will focus on equitable transit-oriented development, regional equity and community engagement, and transit investment to advance opportunity.

**Registration and More Information**
There is no cost to attend, but registration is appreciated. To register, please complete the [online registration form](http://www.corridorsofopportunity.org) by January 22.

Breakfast will be served. For more information, please contact Joe Barbeau at 612-626-2862 or barb0092@umn.edu.

**Parking and Transit**
Parking is available at the [University Avenue Ramp](http://www.minneapolis.gov/parking), the [Washington Avenue Ramp](http://www.minneapolis.gov/parking), and the [Oak Street Ramp](http://www.minneapolis.gov/parking). For transit information, please visit the Metro Transit website or call 612-373-3333.

**Sponsors**
This event is sponsored by Corridors of Opportunity, the Metropolitan Council, the McKnight Foundation, and the Center for Transportation Studies at the University of Minnesota.

*The University of Minnesota is an equal opportunity educator and employer. Disability accommodations will be provided upon request. This publication is available in alternative formats upon request. We respect your privacy. See the University of Minnesota's online privacy policy.*
The Partnership for Regional Opportunity - Corridors of Opportunity Lives on in 2014

December 3, 2013
Corridors of Opportunity Staff

December 31, 2013 marks the end of the HUD Sustainable Communities and Living Cities Integration Initiative grant programs that were the basis for the Corridors of Opportunity initiative. With this turning point in mind, the Corridors of Opportunity Policy Board reflected on the value of the partnership, its accomplishments, and work that remains unfinished.

Members agreed that the initiative’s emphasis on equity and economic competitiveness in advancing the build out of the transit system and development along the system has brought a unique perspective to the region. The convening of the Policy Board – which includes diverse senior leadership from public, private, philanthropic and nonprofit organizations from across the region – has been a critical factor in the initiative’s capacity to create change. In order to more fully embed the findings from the initiative and explore new work more deeply, the Policy Board unanimously agreed to convene for one more year, and will meet six times in 2014.

To reflect the group’s region-wide focus, extending beyond transitways, a new name was chosen for the group: The Partnership for Regional Opportunity (the Partnership). Along with the name change, the Policy Board adopted a new vision for its work: **Growing a prosperous, equitable, and sustainable region.**

The goals of the Partnership are to:

1. Improve the economic prospects of low-income people and low-wealth communities
2. Promote high quality development near existing assets (e.g. employment centers, transitways, and commercial and industrial corridors)
3. Advance a 21st century transportation system

Taking the findings and learnings from the Corridors of Opportunity projects, the Partnership has charged itself with creating systems change and embedding the equity-focused work into existing organizations. Aligning resources, policies, and programs will be a key strategy for implementation, and each participating organization has committed to finding opportunities to embed the work internally.

To further advance these goals, four workgroups co-chaired by leaders from different sectors, have been established, including Policy Board and other implementing organizations.

The four focus areas include:

- **Shared Prosperity**
  - Co-chaired by the McKnight Foundation (Lee Sheehy) and Greater MSP (Michael Langley)
- **Transit-Oriented Development (TOD)**
  - Co-chaired by the Metropolitan Council (Brian Lamb) and Central Corridor Funders Collaborative (Jonathan Sage-Martinson)
- **Regional Equity & Community Engagement**
  - Co-chaired by Ramsey County (Commissioner Jim McDonough) and Nexus Community Partners (Repa Mekha, representing the Community Engagement Team)
- **Transportation Funding**
  - Co-chaired by Minnesota Philanthropy Partners (Ann Mulholland) and the Minnesota Department of Transportation (Commissioner Charlie Zelle)

In 2014, bi-monthly Partnership meetings will be used to demonstrate progress on goals, to hold each other accountable and to raise up issues and opportunities encountered by the workgroups with an eye toward collective problem-solving.

To stay updated and for more information, visit [www.corridorsofopportunity.org](http://www.corridorsofopportunity.org)
Date: January 9, 2014

To: Southwest Community Works Steering Committee

From: Chris Weyer, Southwest LRT Project Director

Re: Southwest LRT (Green Line Extension) progress report through December 2013

Project Development
- Independent consultant staff work on the freight rail relocation analysis and the water resources evaluation was underway in December.
- SPO consultant staff work on vegetation inventory in the Kenilworth Corridor was underway in December.

Environmental Program
- SPO distributed the Wetlands Delineation Report to local government units, Army Corps of Engineers and Minnesota Board of Water Supply for review.
- Consultant continued development of Supplemental DEIS.
- SPO and MnDOT collaborated on Section 106 activities.
- Phase II Archaeological Survey consultant submitted a draft report.
- Title VI Equity Analysis consultant continued work related to the OMF site.

Advisory Committees
- SWLRT Corridor Management Committee met Dec. 4. Meeting included presentation on and discussion of joint development/transit-oriented development opportunities and processes and an update on the freight rail relocation analysis, water resources evaluation and vegetation inventory.
- SWLRT Community Advisory Committee met Dec. 5. Meeting included presentation on and discussion of joint development/transit-oriented development opportunities and processes and an update on the freight rail relocation analysis, water resources evaluation and vegetation inventory.
- SWLRT Committee meeting materials are available at http://metrocouncil.org/Transportation/Projects/Current-Projects/Southwest-LRT/SWLRT-Committees.aspx.

Other Outreach and Communication Activities
SPO staff engaged in the following outreach activities:
- Sent a direct-mail postcard to more than 131,000 residential and business addresses with information on additional studies and January town hall meetings.
- Gave a presentation to the Eden Prairie Chamber of Commerce Dec. 19.
- Responded to approximately 120 calls and emails from the general public.
- Updated the swlrt.org website to include committee agendas, minutes and presentations as well as information on upcoming meetings.
